[Reported Especially for the Bulletin.] ALABAMA LEGISLATURE

MONTGOMERY, Ala., Nov. 26 .- Governor Lowis and all the newly elected state officers took the oath of office this morning. The body sitting at the United States court-room adjourned until to-morrow. Gov. Lewis has so far recognized neither body. It is rumored he will issue a proclamation convening the legislature to meet at the capitol to-morrow. BANQUET TO WASHBURN.

Curcago, Nov. 26 .- A complimentary banquet was given to-night at the Tremont house, to Hon. E. B. Washburn, U. S. minister to France, by a number of his personal friends of this city, including many representative citizens. About 100 guests were present, among them Gov. Oglesby, Senstor Logan, Mayor Medill, ex-Gov. Bross, Gen. Horace Porter and other distinguished persons. The occation was altogether informal, and was most snjoyable. In reply to a toast, Minister Washburn made a few remarks in which the only political allusion was a denial of the report that he was a candidate for U. S. senator, and a graceful declaration that that houer had been fairly won by Gov.

THE PRESIDENT'S MESSAGE.

NEW YORK, Nov. 26,-A Washington social to the New York Herald says that special to the New Lora read a complete the President will to-day read a complete draft of his message to the cabinet. He as yielded this year, as he did last rear, to the advice of experienced poliicians, and changed his tenor, so far as it relates to the South. He gives that secion passing mention; praises wisdom of reement laws; alludes to disappearsace of lawlessnes in the South, as well as good behavior at the polls in the Novemtion, and hopes for a continuance f this condition of affairs. Although he s no special recommendation to make behalf of the South, he desires Conress shall do whatever it deems wisest or the interest of the late rebel states, reterating his previously expressed sentient, that he has no policy to force gainst the wishes of the people. The untry is felicitated on the accomplishents under the treaty of Washington. Cubs is lightly passed over. The case of or. Houard receives but brief menon. Mexico does not receive a large are of attention. Our retation with ifferent foreign nations are disposed of the usual brief paragraph. The comg Vienna exposition commended. Philaphia centennial celebration also spokon Our credit of home and abroad and the efficiency of the management of reign and home policy, and the property the nation, make up the substance of he message.

Washington dispatches state a large bby interest developed relative to the llection of claims under the decision of e Geneva tribunal.

CABINET CHANGES WASHINGTON, Nov. 26 .- The probable hanges in the cabinet, forms the chfef abject of conversation in political cirles. It is understood that Secretary rish will insist on retiring, and intends ta o to Europe next spring, preferring uiet life with his family to official posion. The name of Edward Pierrepont is entloned in connection with the departent of state, by persons friendly to the dministration; but there is strong preju-

Charles Francis Adams and George W. Curtiss. There is a very general expression in behalf of the appointment which Mr. Curtiss received, whose ability and culture so admirably quality him for service. New England people say this would save them if Judge Richardson should be promoted to the treasury, in case Boutwell should be elected senator. ADJOURNED.

THE MESSAGE IN THE ROUGH. WASHINGTON, Nov. 26 .- The rough draft of the president's annual message, though not finished, was read to the cabi net to-day, all members being present. It will be perhaps one-fifth longer than last year's message. In response to the question asked by the writer of this dispatch, the president remarked that he had no objection to saying that the message would not show any change of policy on his part, as his endeavor was now as it had been in the past, to perform his entire duty to the extent of his ability, and in such a manner as would best preserve the interests of the country. He was not certain that he would recommend to congress an extension of amnesty to the 200 or three hunnred persons excluded by the recent legislation, but he did it would be with the proposed condition that the beneficiary merely take an oath to support the constitution of the U. S. Congress, however, had ample authority in the premises and could act with regard to the matter without repetition of his views upon the subject contained in his former annual message, he saw no more necessity,

had been asserted, for making a declaration of a more friendly policy toward the South than for such declarations towards the North, as he sought as president under obligation of his oath to execute the duties of his position without favor or partiality. In his message he would endorse such recommendations of legislation as may be presented by the heads of the several departments, and which experience had shown to be necessary; he would recommend to congress that action be taken in regard to the award made by the Geneva arbitrators. The money will be paid by Great Britain to the department of state, and will be deposited in the treasury; of course it cannot be drawn therefrom except in accordance with law for purposes specified. In course of a conversation on the subject of civil-service reform, the president said that while competitive examirations were desirable, he did not think it right that the offices should be given to the enemies of the administra-

THE REPORT OF THE COM-MITTEE ON ADDRESS COMPLETED.

THEY DECLARE A REPLY TO THIER'S MESSAGE UNNECESSARY.

ETC.

[Reported Especially for the Cairo Bulletin.]

REPORT OF COMMITTEE ON ADDRESS. Paris, Nov. 26 .- The committee on address have completed their report. They propose the immediate nomination of a select committee of fifteen to draw up a bill providing for the creation of a responsible ministry. They declare a reply to the president's message unnecessary, as Thiers is the assembly's delegate. The report suggests no solution of constitutional questions. The minority of the committee, which is favorable to the president, have resolved to prepare a counter report. The report of the majority, which makes a rupture between Thiers and the right complite, causes much anxiety in political circles. The majority of the right is disposed to accept Thiers' resignation if tendered and appoint Gen. Changarnier

FRANCE. Paris, Nov. 26 .- The difference between the executive and legislative departments of the government continue and the situation is regarded as very serious. There is great excitement over affairs at Versnilles, and it is announced that members of the right and right centre are determined to support the position of the committee appointed to draft a reply to the message of Thiors as embraced in its

VIOLENT JOURNALS. LONDON, Nov. 26 .- Dispatches from Paris say radical journals are violent in their language, and declose that a terrible revolution will follow the overthrow of the government of Thiers. The same journals accuse the Legitimists, Orleanists and Imperialists of having formed a coalition for the downfal of the present government. General Changarnierr is also charged with aiming to secure power.

MR. GREELRY'S CONDITION. NEW YORK, Nov . 26 .- In answer to the nquiries at the Tribune office to-night, regarding the condition of Mr. Greeley, the following was obtaind from the best authority: The reports of Mr. Greeley's treatment at Bloomingdale or any other asylum, or of application for his admission to any, are preposterous. He is still suffering from nervous collapse, the result of the loss of nearly all sleep, almost continuously for over a month, during his wife's illness. This finally affected the nerves of his stomach, and it for days rejected food, whereby the system was still more weakened. Within a day or two there has been a marked change for better, both in sleeping and eating, and his physicians are hopeful; but he is yet a very sick man and for the present his friends can best show their regards, by letting him alone.

DEPALCATION. A defalcation of \$75,000 is reported discovered in a banking house in Wall street. The cause is said to be expensive yachting and street speculations.

VANDERBILT ON GOULD. NEW YORK, Nov. 26 .- Commodore Vanderbilt publishes a card this afternoon saying he has not had and does not intend to have any associations whatever with J. to have nothing to do with him. He denies having connection with any Wall street speculative operations.

ARRIVED. Charles Sumser has arrived home.

I. Q. O. F. ATCHISON, Ks., Nov. 26 .- The Odd Fellows of the Missouri valley gathered here in large numbers to-day to assist in dedicating the new hall of the order in this city. The lodges of Leavenworth, accompanied by the fifth infantry band, and those of St. Joseph also accompanied by a fine band, were present in force, and delegations came from many other lodges in this state and Missouri. The Grand Sire of the United States, C. A. Logan, delivered the oration, and the Grand Master of Kansas, George W. Martin, conducted the cere-

monies. Past Grand Master John Doniphan of Missouri, the Deputy Grand Master of Nebraska and many of the grand officers of this state and other distinguished Odd Fellows were present. The procession in the afternoon was one of the largest and most imposing ever witnessed in the West. The ceremonies concluded with a grand banquet. The new hall is universally pronounced to be the finest in the West.

FRAUD EXPOSED.

SAN FRANCISCO, Nov. 26 .- The voluminous report by King Cotton, on alleged diamond fields, has been submitted to the trustees and they have resolved that it is due to the public to expose the fraud upon them and the stockholders. No more stock will be issued or transferred, and the corporation will be dissolved as soon as practicable in his report, Clarence King says the party explored the vicinity of the table rock and found diamonds and rubies on the surface, and in crevices but in each instance there was evidence that the soil had been tampered with. In crevices where there were no traces of men's work there were found no sort of precious stones. Some were found in what were evidently artificial holes, The conclusion arrived at by him is that gems exist in positions where nature could not alone have placed them and that they do not exist where the inevitable laws of pature would have placed them. Finally that the fields have been salted. The other reports corroborate that of King.

WOMAN SUPPRACE. TERRE HAUTE, Nov. 26 .- A large meeting composed of leading citizens of all parties was held in this city this evening for the purpose of organizing a woman suffrage association. A permanent organization was effected with Maj. O. J. Smith as president. Vice-presidents: Judge Scott, Mrs. H. D. Scott, wife of Senator Scott, and Mrs. B. Booth, mother of the governor of California. The movement is very strong here, including many of the best and most influenced in the second strategy of the best and most influenced in the second strategy of the seco ing for the purpose of organizing a woman
